Clarifying Notes:

- Continuity clinic is one half-day per week in all rotations except Critical Care, Hematology portion of Hematology/Oncology, and Rheumatology, and is not included in the percent outpatient reported in the table.
- Vacation is allowed in all rotations except those marked with *.
- Electives are available in all specialty areas included in the block rotation diagram, and also in Inpatient Procedures, Orthopedics/Sports Medicine, ENT, Women’s Health, Clinical Pathology & Blood Bank, Research/Scholarly Activity, Quality Improvement & Patient Safety, Dermatology, Academic Medicine, Interventional Radiology, and Behavioral/Mental Health. Residents may request other experiences not listed that align with their special interests and future practice plans, subject to approval by the program director.
- Research** - on rotations so indicated, residents have 2 hours / month in the didactic schedule dedicated to the scholarly activity curriculum and an additional 2 hours / month for independent learning and/or scholarly project work time.
